#### Permanentes

##### **Senior Lecturer in Experimental Nuclear Physics at Jyväskylä**

The Department of Physics is seeking to recruit a candidate for the position of Senior Lecturer in Experimental Nuclear Physics starting on August 1, 2023 or as soon as possible thereafter in effect until further notice. [Link](#)

### Congresos, Talleres, Seminarios y Escuelas

#### **Second DONES Users Workshop**

The Second DONES Users Workshop will be held as an in-person event in Granada, Spain, on 19-20 October 2023. The key objective of this Second DONES User's Workshop is to contribute and consolidate the international DONES Users Community representing all the different scientific and technological areas that could be interested in this facility.

More information, abstract submission and registration: [Link](#)

#### **Synergies in High Resolution Spectroscopy Workshop (HIRES)**

The workshop will take place from 12-15 December 2023 at the Institut Laue Langevin (ILL) in Grenoble, France, and aims to bring together researchers in the field of neutron spin-echo, backscattering, and/or time-of flight (TOF) spectroscopy. The aim is not only to give account of recent scientific achievements where these techniques contributed significantly, but also showcase the complementary of the techniques, opening up new collaborations and attract new users. Therefore, the scope of the workshop is not limited to neutron techniques, the participation of experts of complementary methods are welcome as well. Abstract submission deadline: 1 July 2023

More information can be found at: [Link](#)

**Symposium in Honor of John Schiffer**

Together with UChicago, Argonne National Laboratory will host a symposium in honor of John Schiffer on July 10-11th, 2023. A reception to open the event will occur on the evening of July 9th. The symposium will take place in the Physics Division at Argonne. Given space for this event is limited, we ask that all of those who plan to attend please register in a timely manner. There is no fee for this event. Event website: [Link](#)

**Workshop on Statistical Nuclear Physics for Astrophysics and Applications**

The organizers for the workshop “Taking the Temperature (T<sub>3</sub>): Workshop on Statistical Nuclear Physics for Astrophysics and Applications” would like to announce that the deadline for abstract submission has been extended until June 3. The workshop will be held from 14-17 August 2023 on the campus of Ohio University in Athens OH, USA. The workshop website is [Link](#)

**Developing Early Career Physics Mentors**

As part of the 2023 Fall Meeting of the Division of Nuclear Physics we will hold a workshop on Developing Early Career Physics Mentors. This satellite meeting will take place at the Hyatt Regency Maui Resort & Spa on Saturday, 07 October to include both the morning and afternoon session. This workshop aims to train young scientists, primarily assistant professors and new staff scientists, with the skills to mentor graduate and undergraduate students. More information can be found on the conference website: [Link](#) . Application form: [Link](#)

**Ecole Joliot Curie 2023: weak-interaction**

The purpose of this year's edition is to cover the field of high precision experiments at low energy, which search for physics Beyond the Standard Model in the weak sector, using beta decay. Theoretical courses and courses dedicated to experiments will highlight the common goals and the differences in approaches in the fields of nuclear, neutron and neutrino physics. The pre-inscription deadline has been extended to June 15, 2023, and the school dates are September 17th to 22nd.

**International Conference (HYPERFINE2023)**

The HYPERFINE2023 conference will be held from the 13th to 17th of November 2023 in Nara, Japan. Abstract submission deadline has been extended until June 15. [Link](#)

**International Symposium on Nuclear Astrophysics**

The “International Symposium on Nuclear Astrophysics (ISNA - 2023)) will be held from October 29th to November 4th, 2023 at Manipal Academy of Higher Education, Manipal. The aim of this symposium is to bring together a diverse group of researchers across the globe who works on nuclear physics (experiments and theory), and astrophysics & astronomy (observational and experiments) to serve the needs for growing interdisciplinary branch of Nuclear Astrophysics. One of the objectives of the meeting is to educate Ph.D students, Postdocs and young Researchers in the field of nuclear astrophysics. More information: [Link](#)

### **Investigadores de la red FNUC consiguen la Consolidación Investigadora 2022**

El Ministerio de Ciencia e Innovación ha concedido a varios investigadores pertenecientes a la red FNUC (Vincent Mathieu, Javier Menéndez y Arnau Ríos, investigadores del ICCUB, Samuel España del GFN-UCM) las ayudas a la Consolidación Investigadora 2022 dentro del Programa Estatal para Desarrollar, Atraer y Retener Talento, del Plan Estatal de Investigación Científica, Técnica y de Innovación para el período 2021-2023, en el marco del Plan de Recuperación, Transformación y Resiliencia. La lista completa se puede consultar en la página web del ministerio ([Link1](#))
