##### **Vacancy for a SCIENTIST at ILL**

A new vacancy for a scientist in the Science Division / Large Scale Structures Group (ref 23/19) has just been published on the site: <https://www.ill.eu/careers>.

#### Postdoc

##### **Post-doctoral positions at LP2i Bordeaux in ion trap physics**

LP2i Bordeaux is offering two post-doctoral positions to work on the GPIB and PIPERADE devices developed for the future DESIR/SPIRAL2 facility.

Researchers or research engineers interested in the positions are requested to apply on the official CNRS recruitment website (links below) before the 3 May 2023.

Link for the application to the GPIB position [here](#).

Link for the application to the PIPERADE position [here](#).

##### **Post-doctoral positions at LP2i Bordeaux in ion trap physics**

A post-doc position is open for application at LPC Caen in the MPBE group (Precision measurements at low energy). The job description and application information can be found on the [web site](#).

##### **RIKEN Early Career Leaders Program**

RIKEN is now accepting applications for the positions of Team Leader and Unit Leader from young researchers:

- \* RIKEN ECL (Early Career Leaders) Team Leader

- \* RIKEN ECL Unit Leader

- \* Sechi Kato Program for RIKEN ECL Program (Female Junior PI Program)

The deadline for applicant registration is June 19, 2023 (midnight, Japan time). For details of the program, please visit the following [website](#).

## Postdoc

### Call for bids for European Nuclear Physics Conference (EuNPC2025)

The conference brings together researchers from a multi-disciplinary community of experimental and theoretical nuclear physicists to discuss the status and the prospects of the field as well as its applications. It is part of the series of NPD divisional conferences, which includes also the Nuclear Physics in Astrophysics (NPA) and the Applied Nuclear Physics (ANP) Conferences.

The application material for the conference should include the description of the proposed location and venue, the participating Universities and Laboratories, the projected costs, the expected financial support, and the expected approximate conference fees. The bid should also provide the list of members comprising the Local Organizing Committee.

The deadline to submit the application material to the Scientific Secretary of the NPD board (Dr Zsófia Kertész [zsofi@atomki.hu](mailto:zsofi@atomki.hu)) is 30 April, 2023. The NPD board will select the host of EuNPC 2025 at its meeting in May 2023.
